© 1999 Society for Ecological Restoration

Subject Index Volume 7

Africa
Protocols for restoration based on recruitment dynamics, community structure, and ecosystem function: Perspectives from South African fynbos (Holmes and Richardson), 215
Termite- and mulch-mediated rehabilitation of vegetation on crusted soil in West Africa (Mando et al), 33

Amazon river
Restoration of tropical moist forest on bauxite-mined lands in the Brazilian Amazon (Parrotta and Knowles), 103

Animals
Environmental heterogeneity, animal disturbances, microsite characteristics, and seedling establishment in a *Quercus havardii* community (Dhillion), 399

Ants
Comparative study of ant communities of rehabilitated mineral sand mines and heathland, Western Australia (Bisevac and Majer), 117

Aristida stricta
Restoring *Aristida stricta* to *Pinus palustris* ecosystems on the Atlantic Coastal Plain, U.S.A. (Outcalt et al), 262

Arizona
Effects of restoration thinning on presettlement *Pinus ponderosa* in northern Arizona (Stone et al), 172

Atlantic Coastal Plain
Restoring *Aristida stricta* to *Pinus palustris* ecosystems on the Atlantic Coastal Plain, U.S.A. (Outcalt et al), 262

Australia
Comparative study of ant communities of rehabilitated mineral sand mines and heathland, Western Australia (Bisevac and Majer), 117
The role of isolated trees in facilitating tree seedling recruitment at a degraded sub-tropical rainforest site (Toh et al), 288

Bauxite
Restoration of tropical moist forest on bauxite-mined lands in the Brazilian Amazon (Parrotta and Knowles), 103

Birch
Performance of birch seedlings replanted in heavily polluted industrial barrens of the Kola Peninsula, northwest Russia (Kozlov and Haukioja), 145

Birds
Vegetation similarity and avifaunal food value of restored and natural marshes in northern New York (Brown), 56

Book reviews
Agroecology: Ecological Processes in Sustainable Agriculture, by Gliessman (Altieri), 212
The Ecological Basis of Conservation: Heterogeneity, Ecosystems, and Biodiversity, edited by Pickett et al (Schwartz), 316
European Wet Grasslands: Biodiversity, Management, and Restoration, edited by Joyce and Cade (Zedler), 411
Instream Flow Protection: Seeking a Balance in Western Water Use, by Gillilan and Brown (Castelli), 100
Restoration Ecology and Sustainable Development, edited by Urbanska et al (Jackson), 98
Restoration of Tropical Forest Ecosystems, edited by Lieth and Lohmann (Brown), 98
Restoring Streams in Cities, by Riley (O'Connor), 316
The Tallgrass Restoration Handbook for Prairies, Savannas, and Woodlands, edited by Packard and Mutel (Aschenbach and Kindscher), 212

Bottomlands
Evaluation of reforestation in the lower Mississippi River Alluvial Valley (King and Keeland), 348

Brazil
Restoration of tropical moist forest on bauxite-mined lands in the Brazilian Amazon (Parrotta and Knowles), 103

Britain
The importance of transplant size and gap width in the botanical enrichment of species-poor grasslands in Britain (Davies et al), 271

Bunchgrasses
Environmental heterogeneity, animal disturbances, microsite characteristics, and seedling establishment in a *Quercus havardii* community (Dhillion), 399
Restoring *Aristida stricta* to *Pinus palustris* ecosystems on the Atlantic Coastal Plain, U.S.A. (Outcalt et al), 262
Water and nutrient outflow following the ecological restoration of a ponderosa pine-bunchgrass ecosystem (Kaye et al), 252

Burning
Effects of burning and grazing on a coastal California grassland (Hatch et al), 376

California
The edible plant *Dichelostemma capitatum*: Its vegetative reproduction response to different indigenous harvesting regimes in California (Anderson and Rowney), 231
Effects of burning and grazing on a coastal California grassland (Hatch et al), 376
Nitrogen addition could shift plant community composition in a restored California salt marsh (Boyer and Zedler), 74

Carbon
Effects of soil nitrogen reduction on nonnative plants in restored grasslands (Reever Morghan and Seastedt), 51

Carex
Effects of moisture, temperature, and time on seed germination of

© 1999 Society for Ecological Restoration

five wetland *Carices*: Implications for restoration (Budelsky and Galatowitsch), 86
Factors affecting revegetation of *Carex lacustris* and *Carex stricta* from rhizomes (Yetka and Galatowitsch), 162
Coal
Simulated herbivory and vegetation dynamics in coal slurry ponds reclaimed as wetlands (Mathis and Middleton), 392
Translocation of herb-rich grassland from a site in Wales prior to opencast coal extraction (Good et al), 336
Compost
Effects of municipal waste leachate on seed germination in soil-compost mixtures (Marchiol et al), 155
Computer software
Prediction of vegetation succession in human-disturbed habitats using an expert system (Prach et al), 15
Costa Rica
Photosynthetic responses to light for rainforest seedlings planted in abandoned pasture, Costa Rica (Loik and Holl), 382
Deserts
Nurse plants, mycorrhizae, and plant establishment in a disturbed area of the Sonoran Desert (Carrillo-Garcia et al), 321
Dichelostemma capitatum
The edible plant *Dichelostemma capitatum*: Its vegetative reproduction response to different indigenous harvesting regimes in California (Anderson and Rowney), 231
Dupuis Reserve
Response of exotics to restored hydroperiod at Dupuis Reserve, Florida (David), 407
Exotic grasses
Response of exotics to restored hydroperiod at Dupuis Reserve, Florida (David), 407
Expert systems
Prediction of vegetation succession in human-disturbed habitats using an expert system (Prach et al), 15
Flooding
Influence of experimental flooding on litter dynamics in a Rio Grande riparian forest, New Mexico (Ellis et al), 193
Response of exotics to restored hydroperiod at Dupuis Reserve, Florida (David), 407
Success of instream habitat structures after a 50-year flood in Gold Creek, Montana (Schmetterling and Pierce), 369
Florida
Response of exotics to restored hydroperiod at Dupuis Reserve, Florida (David), 407
Restoration of riverine forest at hall branch on phosphate-mined land, Florida (Clewell), 1
Food
The edible plant *Dichelostemma capitatum*: Its vegetative reproduction response to different indigenous harvesting regimes in California (Anderson and Rowney), 231
Vegetation similarity and avifaunal food value of restored and natural marshes in northern New York (Brown), 56
Forests
Assessing the success of restoration plantings in a temperate New Zealand forest (Reay and Norton), 298
Effects of restoration thinning on presettlement *Pinus ponderosa* in northern Arizona (Stone et al), 172
Evaluation of reforestation in the lower Mississippi River Alluvial Valley (King and Keeland), 348
Influence of experimental flooding on litter dynamics in a Rio Grande riparian forest, New Mexico (Ellis et al), 193
Photosynthetic responses to light for rainforest seedlings planted in abandoned pasture, Costa Rica (Loik and Holl), 382
Restoration of riverine forest at hall branch on phosphate-mined land, Florida (Clewell), 1
Restoration of tropical moist forest on bauxite-mined lands in the Brazilian Amazon (Parrotta and Knowles), 103
Riparian forest restoration along large rivers: Initial results from the Sacramento River Project (Alpert et al), 360
The role of isolated trees in facilitating tree seedling recruitment at a degraded sub-tropical rainforest site (Toh et al), 288
Water and nutrient outflow following the ecological restoration of a ponderosa pine-bunchgrass ecosystem (Kaye et al), 252
Fragmentation
Habitat loss, fragmentation, and restoration (Huxel and Hastings), 309
Fungi
Nurse plants, mycorrhizae, and plant establishment in a disturbed area of the Sonoran Desert (Carrillo-Garcia et al), 321
Fynbos
Protocols for restoration based on recruitment dynamics, community structure, and ecosystem function: Perspectives from South African fynbos (Holmes and Richardson), 215
Genetics
Ecological genetics and the restoration of plant communities: Mix or match? (Lesica and Allendorf), 42
Grasses
Environmental heterogeneity, animal disturbances, microsite characteristics, and seedling establishment in a *Quercus havardii* community (Dhillion), 399
Response of exotics to restored hydroperiod at Dupuis Reserve, Florida (David), 407
Restoring *Aristida stricta* to *Pinus palustris* ecosystems on the Atlantic Coastal Plain, U.S.A. (Outcalt et al), 262
Water and nutrient outflow following the ecological restoration of a ponderosa pine-bunchgrass ecosystem (Kaye et al), 252

Grasslands
Effects of burning and grazing on a coastal California grassland (Hatch et al), 376
Effects of soil nitrogen reduction on nonnative plants in restored grasslands (Reever Morghan and Seastedt), 51
Establishing tallgrass prairie on grazed permanent pasture in the upper Midwest (Jackson), 127
The importance of transplant size and gap width in the botanical enrichment of species-poor grasslands in Britain (Davies et al), 271
Translocation of herb-rich grassland from a site in Wales prior to opencast coal extraction (Good et al), 336
Gravel pit
Establishment of woody riparian species from natural seedfall at a former gravel pit (Roelle and Gladwin), 183
Grazing
Effects of burning and grazing on a coastal California grassland (Hatch et al), 376
Establishing tallgrass prairie on grazed permanent pasture in the upper Midwest (Jackson), 127
Habitats
Habitat loss, fragmentation, and restoration (Huxel and Hastings), 309
Success of instream habitat structures after a 50-year flood in Gold Creek, Montana (Schmetterling and Pierce), 369
Headwaters
Application of reference data for assessing and restoring headwater ecosystems (Rheinhardt et al), 241
Heathlands
Comparative study of ant communities of rehabilitated mineral sand mines and heathland, Western Australia (Bisevac and Majer), 117
Herbs
Simulated herbivory and vegetation dynamics in coal slurry ponds reclaimed as wetlands (Mathis and Middleton), 392
Translocation of herb-rich grassland from a site in Wales prior to opencast coal extraction (Good et al), 336
India
Leguminous trees for the rehabilitation of sodic wasteland in northern India (Garg), 281
Industrial barrens
Performance of birch seedlings replanted in heavily polluted industrial barrens of the Kola Peninsula, northwest Russia (Kozlov and Haukioja), 145
Iowa
Establishing tallgrass prairie on grazed permanent pasture in the upper Midwest (Jackson), 127
Leachates
Effects of municipal waste leachate on seed germination in soil-compost mixtures (Marchiol et al), 155
Light
Photosynthetic responses to light for rainforest seedlings planted in abandoned pasture, Costa Rica (Loik and Holl), 382
Litter
Influence of experimental flooding on litter dynamics in a Rio Grande riparian forest, New Mexico (Ellis et al), 193
Mangrove
An experimental assessment of slag as a substrate for mangrove rehabilitation (Day et al), 139
Marshes
Nitrogen addition could shift plant community composition in a restored California salt marsh (Boyer and Zedler), 74
Salt marsh tidal channel morphometry: applications for wetland creation and restoration (Zeff), 205
Tracking wetland restoration: Do mitigation sites follow desired trajectories? (Zedler and Callaway), 69
Vegetation similarity and avifaunal food value of restored and natural marshes in northern New York (Brown), 56
Memorial
William A. Niering (Allen and Holland), 319
Mine lands
Comparative study of ant communities of rehabilitated mineral sand mines and heathland, Western Australia (Bisevac and Majer), 117
Establishment of woody riparian species from natural seedfall at a former gravel pit (Roelle and Gladwin), 183
Restoration of riverine forest at hall branch on phosphate-mined land, Florida (Clewell), 1
Restoration of tropical moist forest on bauxite-mined lands in the Brazilian Amazon (Parrotta and Knowles), 103
Shrub densities on pre-1985 reclaimed mine lands in Wyoming (Booth et al), 24
Simulated herbivory and vegetation dynamics in coal slurry ponds reclaimed as wetlands (Mathis and Middleton), 392
Translocation of herb-rich grassland from a site in Wales prior to opencast coal extraction (Good et al), 336
Mississippi River
Evaluation of reforestation in the lower Mississippi River Alluvial Valley (King and Keeland), 348
Mitigation
Tracking wetland restoration: Do mitigation sites follow desired trajectories? (Zedler and Callaway), 69
Montana
Success of instream habitat structures after a 50-year flood in Gold Creek, Montana (Schmetterling and Pierce), 369
Mulch
Termite- and mulch-mediated rehabilitation of vegetation on crusted soil in West Africa (Mando et al), 33
Municipal waste compost
Effects of municipal waste leachate on seed germination in soil-compost mixtures (Marchiol et al), 155

Mycorrhizae
Nurse plants, mycorrhizae, and plant establishment in a disturbed area of the Sonoran Desert (Carrillo-Garcia et al), 321
New Mexico
Influence of experimental flooding on litter dynamics in a Rio Grande riparian forest, New Mexico (Ellis et al), 193
New York
Vegetation similarity and avifaunal food value of restored and natural marshes in northern New York (Brown), 56
New Zealand
Assessing the success of restoration plantings in a temperate New Zealand forest (Reay and Norton), 298
Niering, William A.
William A. Niering (Allen and Holland), 319 (Memorial)
Nitrogen
Effects of soil nitrogen reduction on nonnative plants in restored grasslands (Reever Morghan and Seastedt), 51
Nitrogen addition could shift plant community composition in a restored California salt marsh (Boyer and Zedler), 74
Nutrients
Water and nutrient outflow following the ecological restoration of a ponderosa pine-bunchgrass ecosystem (Kaye et al), 252
Obituary
William A. Niering (Allen and Holland), 319 (Memorial)
Pastures
Establishing tallgrass prairie on grazed permanent pasture in the upper Midwest (Jackson), 127
Photosynthetic responses to light for rainforest seedlings planted in abandoned pasture, Costa Rica (Loik and Holl), 382
Phosphate
Restoration of riverine forest at hall branch on phosphate-mined land, Florida (Clewell), 1
Photosynthesis
Photosynthetic responses to light for rainforest seedlings planted in abandoned pasture, Costa Rica (Loik and Holl), 382
Pinus palustris
Restoring *Aristida stricta* to *Pinus palustris* ecosystems on the Atlantic Coastal Plain, U.S.A. (Outcalt et al), 262
Pinus ponderosa
Effects of restoration thinning on presettlement *Pinus ponderosa* in northern Arizona (Stone et al), 172
Water and nutrient outflow following the ecological restoration of a ponderosa pine-bunchgrass ecosystem (Kaye et al), 252
Plants
Assessing the success of restoration plantings in a temperate New Zealand forest (Reay and Norton), 298
Ecological genetics and the restoration of plant communities: Mix or match? (Lesica and Allendorf), 42
The edible plant *Dichelostemma capitatum*: Its vegetative reproduction response to different indigenous harvesting regimes in California (Anderson and Rowney), 231
Effects of soil nitrogen reduction on nonnative plants in restored grasslands (Reever Morghan and Seastedt), 51
The importance of transplant size and gap width in the botanical enrichment of species-poor grasslands in Britain (Davies et al), 271
Nitrogen addition could shift plant community composition in a restored California salt marsh (Boyer and Zedler), 74
Nurse plants, mycorrhizae, and plant establishment in a disturbed area of the Sonoran Desert (Carrillo-Garcia et al), 321
Vegetation similarity and avifaunal food value of restored and natural marshes in northern New York (Brown), 56
Pollution
Performance of birch seedlings replanted in heavily polluted industrial barrens of the Kola Peninsula, northwest Russia (Kozlov and Haukioja), 145
Ponds
Simulated herbivory and vegetation dynamics in coal slurry ponds reclaimed as wetlands (Mathis and Middleton), 392
Prairies
Establishing tallgrass prairie on grazed permanent pasture in the upper Midwest (Jackson), 127
Protocols
Protocols for restoration based on recruitment dynamics, community structure, and ecosystem function: Perspectives from South African fynbos (Holmes and Richardson), 215
Quercus havardii
Environmental heterogeneity, animal disturbances, microsite characteristics, and seedling establishment in a *Quercus havardii* community (Dhillion), 399
Rainforests
Photosynthetic responses to light for rainforest seedlings planted in abandoned pasture, Costa Rica (Loik and Holl), 382
Restoration of tropical moist forest on bauxite-mined lands in the Brazilian Amazon (Parrotta and Knowles), 103
The role of isolated trees in facilitating tree seedling recruitment at a degraded sub-tropical rainforest site (Toh et al), 288
Reference data
Application of reference data for assessing and restoring headwater ecosystems (Rheinhardt et al), 241
Restoration thinning
Effects of restoration thinning on presettlement *Pinus ponderosa* in northern Arizona (Stone et al), 172
Rhizomes
Factors affecting revegetation of *Carex lacustris* and *Carex stricta* from rhizomes (Yetka and Galatowitsch), 162
Rio Grande river
Influence of experimental flooding on litter dynamics in a Rio

Grande riparian forest, New Mexico (Ellis et al), 193
Riparian wetlands
Establishment of woody riparian species from natural seedfall at a former gravel pit (Roelle and Gladwin), 183
Influence of experimental flooding on litter dynamics in a Rio Grande riparian forest, New Mexico (Ellis et al), 193
Riparian forest restoration along large rivers: Initial results from the Sacramento River Project (Alpert et al), 360
Rivers
Evaluation of reforestation in the lower Mississippi River Alluvial Valley (King and Keeland), 348
Restoration of tropical moist forest on bauxite-mined lands in the Brazilian Amazon (Parrotta and Knowles), 103
Riparian forest restoration along large rivers: Initial results from the Sacramento River Project (Alpert et al), 360
Russia
Performance of birch seedlings replanted in heavily polluted industrial barrens of the Kola Peninsula, northwest Russia (Kozlov and Haukioja), 145
Sacramento River
Riparian forest restoration along large rivers: Initial results from the Sacramento River Project (Alpert et al), 360
Salt
Nitrogen addition could shift plant community composition in a restored California salt marsh (Boyer and Zedler), 74
Salt marsh tidal channel morphometry: applications for wetland creation and restoration (Zeff), 205
Sand
Comparative study of ant communities of rehabilitated mineral sand mines and heathland, Western Australia (Bisevac and Majer), 117
Sedge
Factors affecting revegetation of *Carex lacustris* and *Carex stricta* from rhizomes (Yetka and Galatowitsch), 162
Seeds
Effects of moisture, temperature, and time on seed germination of five wetland *Carices*: Implications for restoration (Budelsky and Galatowitsch), 86
Effects of municipal waste leachate on seed germination in soil-compost mixtures (Marchiol et al), 155
Establishment of woody riparian species from natural seedfall at a former gravel pit (Roelle and Gladwin), 183
Shrubs
Shrub densities on pre-1985 reclaimed mine lands in Wyoming (Booth et al), 24
Slag
An experimental assessment of slag as a substrate for mangrove rehabilitation (Day et al), 139
Sodic soil
Leguminous trees for the rehabilitation of sodic wasteland in northern India (Garg), 281
Software
Prediction of vegetation succession in human-disturbed habitats using an expert system (Prach et al), 15
Soil
Effects of municipal waste leachate on seed germination in soil-compost mixtures (Marchiol et al), 155
Effects of soil nitrogen reduction on nonnative plants in restored grasslands (Reever Morghan and Seastedt), 51
Leguminous trees for the rehabilitation of sodic wasteland in northern India (Garg), 281
Nurse plants, mycorrhizae, and plant establishment in a disturbed area of the Sonoran Desert (Carrillo-Garcia et al), 321
Termite- and mulch-mediated rehabilitation of vegetation on crusted soil in West Africa (Mando et al), 33
Sonoran Desert
Nurse plants, mycorrhizae, and plant establishment in a disturbed area of the Sonoran Desert (Carrillo-Garcia et al), 321
South Africa
Protocols for restoration based on recruitment dynamics, community structure, and ecosystem function: Perspectives from South African fynbos (Holmes and Richardson), 215
Spatial processes
Habitat loss, fragmentation, and restoration (Huxel and Hastings), 309
Streams
Application of reference data for assessing and restoring headwater ecosystems (Rheinhardt et al), 241
Success of instream habitat structures after a 50-year flood in Gold Creek, Montana (Schmetterling and Pierce), 369
Substrates
An experimental assessment of slag as a substrate for mangrove rehabilitation (Day et al), 139
SUCCESS
Prediction of vegetation succession in human-disturbed habitats using an expert system (Prach et al), 15
Tallgrasses
Establishing tallgrass prairie on grazed permanent pasture in the upper Midwest (Jackson), 127
Termites
Termite- and mulch-mediated rehabilitation of vegetation on crusted soil in West Africa (Mando et al), 33
Tidal channels
Salt marsh tidal channel morphometry: applications for wetland creation and restoration (Zeff), 205
Trajectory
Tracking wetland restoration: Do mitigation sites follow desired trajectories? (Zedler and Callaway), 69

Trees
Effects of restoration thinning on presettlement *Pinus ponderosa* in northern Arizona (Stone et al), 172
An experimental assessment of slag as a substrate for mangrove rehabilitation (Day et al), 139
Leguminous trees for the rehabilitation of sodic wasteland in northern India (Garg), 281
Performance of birch seedlings replanted in heavily polluted industrial barrens of the Kola Peninsula, northwest Russia (Kozlov and Haukioja), 145
Restoration of riverine forest at hall branch on phosphate-mined land, Florida (Clewell), 1
Restoration of tropical moist forest on bauxite-mined lands in the Brazilian Amazon (Parrotta and Knowles), 103
Restoring *Aristida stricta* to *Pinus palustris* ecosystems on the Atlantic Coastal Plain, U.S.A. (Outcalt et al), 262
The role of isolated trees in facilitating tree seedling recruitment at a degraded sub-tropical rainforest site (Toh et al), 288
Water and nutrient outflow following the ecological restoration of a ponderosa pine-bunchgrass ecosystem (Kaye et al), 252
Tropics
Restoration of tropical moist forest on bauxite-mined lands in the Brazilian Amazon (Parrotta and Knowles), 103
The role of isolated trees in facilitating tree seedling recruitment at a degraded sub-tropical rainforest site (Toh et al), 288
Vegetation
Ecological genetics and the restoration of plant communities: Mix or match? (Lesica and Allendorf), 42
The edible plant *Dichelostemma capitatum*: Its vegetative reproduction response to different indigenous harvesting regimes in California (Anderson and Rowney), 231
Effects of municipal waste leachate on seed germination in soil-compost mixtures (Marchiol et al), 155
Effects of soil nitrogen reduction on nonnative plants in restored grasslands (Reever Morghan and Seastedt), 51
Factors affecting revegetation of *Carex lacustris* and *Carex stricta* from rhizomes (Yetka and Galatowitsch), 162
The importance of transplant size and gap width in the botanical enrichment of species-poor grasslands in Britain (Davies et al), 271
Prediction of vegetation succession in human-disturbed habitats using an expert system (Prach et al), 15
Response of exotics to restored hydroperiod at Dupuis Reserve, Florida (David), 407
Simulated herbivory and vegetation dynamics in coal slurry ponds reclaimed as wetlands (Mathis and Middleton), 392
Termite- and mulch-mediated rehabilitation of vegetation on crusted soil in West Africa (Mando et al), 33
Vegetation similarity and avifaunal food value of restored and natural marshes in northern New York (Brown), 56
Wales
Translocation of herb-rich grassland from a site in Wales prior to opencast coal extraction (Good et al), 336
Wastelands
Leguminous trees for the rehabilitation of sodic wasteland in northern India (Garg), 281
Water
Application of reference data for assessing and restoring headwater ecosystems (Rheinhardt et al), 241
Simulated herbivory and vegetation dynamics in coal slurry ponds reclaimed as wetlands (Mathis and Middleton), 392
Success of instream habitat structures after a 50-year flood in Gold Creek, Montana (Schmetterling and Pierce), 369
Water and nutrient outflow following the ecological restoration of a ponderosa pine-bunchgrass ecosystem (Kaye et al), 252
West Africa
Termite- and mulch-mediated rehabilitation of vegetation on crusted soil in West Africa (Mando et al), 33
Western Australia
Comparative study of ant communities of rehabilitated mineral sand mines and heathland, Western Australia (Bisevac and Majer), 117
Wetlands
Application of reference data for assessing and restoring headwater ecosystems (Rheinhardt et al), 241
Effects of moisture, temperature, and time on seed germination of five wetland *Carices*: Implications for restoration (Budelsky and Galatowitsch), 86
Establishment of woody riparian species from natural seedfall at a former gravel pit (Roelle and Gladwin), 183
Influence of experimental flooding on litter dynamics in a Rio Grande riparian forest, New Mexico (Ellis et al), 193
Nitrogen addition could shift plant community composition in a restored California salt marsh (Boyer and Zedler), 74
Photosynthetic responses to light for rainforest seedlings planted in abandoned pasture, Costa Rica (Loik and Holl), 382
Restoration of riverine forest at hall branch on phosphate-mined land, Florida (Clewell), 1
Riparian forest restoration along large rivers: Initial results from the Sacramento River Project (Alpert et al), 360
Salt marsh tidal channel morphometry: applications for wetland

creation and restoration (Zeff), 205
Simulated herbivory and vegetation dynamics in coal slurry ponds reclaimed as wetlands (Mathis and Middleton), 392
Tracking wetland restoration: Do mitigation sites follow desired trajectories? (Zedler and Callaway), 69
Vegetation similarity and avifaunal food value of restored and natural marshes in northern New York (Brown), 56

Wyoming

Shrub densities on pre-1985 reclaimed mine lands in Wyoming (Booth et al), 24

[signature] , Publisher — 9/23/99

I certify that all information furnished on this form is true and complete. I understand that anyone who furnishes false or misleading information on this form or who omits material or information requested on the form may be subject to criminal sanctions (including fines and imprisonment) and/or civil sanctions (including multiple damages and civil penalties).

Instructions to Publishers

1. Complete and file one copy of this form with your postmaster annually on or before October 1. Keep a copy of the completed form for your records.
2. In cases where the stockholder or security holder is a trustee, include in items 10 and 11 the name of the person or corporation for whom the trustee is acting. Also include the names and addresses of individuals who are stockholders who own or hold 1 percent or more of the total amount of bonds, mortgages, or other securities of the publishing corporation. In item 11, if none, check the box. Use blank sheets if more space is required.
3. Be sure to furnish all circulation information called for in item 15. Free circulation must be shown in items 15d, e, and f.
4. If the publication had second-class authorization as a general or requester publication, this Statement of Ownership, Management, and Circulation must be published; it must be printed in any issue in October or, if the publication is not published during October, the first issue printed after October.
5. In item 16, indicate the date of the issue in which this Statement of Ownership will be published.
6. Item 17 must be signed.

Failure to file or publish a statement of ownership may lead to suspension of second-class authorization.
